Fund Manager Commentary

November saw the FTSE 100, FTSE 250 and FTSE small cap return 12.4%, 12.3% and 14.9% respectively. The anticipation of several viable vaccines saw world equity markets rally, Sterling strengthen against the Dollar as investors rotated away from perceived safe havens, and the oil price reach its highest level since March. The Bank of England announced an increased level of quantitative easing due to the resurgence of coronavirus. The chancellor's spending review saw an unprecedented level of government borrowing and economic contraction. The overseas aid budget was reduced and public sector pay increases were largely frozen. The furlough scheme was extended and more support was announced for the self-employed. Brexit talks remained at an impasse. Performance for the month was negatively impacted by a very strong rally in cyclical sectors - Oil & Gas, Mining, and Defence, none of which are investible on responsible and sustainable grounds. At a stock level, Dunelm, Genus and Dechra added to performance whilst James Fisher and Scapa were detractors. The Fund's performance over 1 year remains well ahead of the benchmark. The Fund continues to take in material net new inflows year to date, despite the UK being an unloved market by fund buyers.
