#### Fund Manager Commentary

Global equities were up by over +4% in March in GBP terms, with UK equities keeping pace with overseas markets, whilst the pound was weaker against the dollar but stronger against the euro. The UK vaccination programme continued unabated, whilst supply bottlenecks and health concerns hampered rollout in some regions, most notably continental Europe. Fixed interest was flat on the month, with yields little changed in March after February's sharp increase, and limited movement within corporate credit spreads. The Fund was -0.6% behind the FTSE All-Share benchmark over the month, with strong performance from overseas equities offset by allocation to comparatively weaker fixed interest and marginal underperformance from the Fund's UK equity allocation. Within overseas equities, all regions were ahead of benchmark, whilst UK equities suffered a degree of allocation weakness via exposure to Energy, Basic Materials and Real Estate, as well as stock selection underperformance within Consumer Discretionary and Consume Staples. Top performance contributors for the month were skewed towards outperforming value names including BT Group, GlaxoSmithKline, Legal & General and Royal Mail, whilst detractors included TUI, Taiwan Semiconductors, Renewables Infrastructure Group and Royal Dutch Shell, with the latter impacted by lower oil prices.
