

# EdenTree Green Impact Equity Fund

## Share Class B

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

This fund is a sub-fund of EdenTree Investment Funds – Series 1, an open ended investment company managed by EdenTree Investment Management Limited as the Authorised Corporate Director.

### Objectives and Investment Policy

#### Financial Objective

To provide capital growth over a period of 5 years or more, with an income.

#### Sustainability Objective

To support a reduction in the level of greenhouse gas emissions, measured in tonnes of CO<sub>2</sub>e avoided on an annual basis, through the Fund's investment in, and with, companies whose products and services provide climate change solutions across seven pre-defined themes: Alternative Energy, Energy Efficiency, Circular Economy, Environmental Services, Water Management, Future Mobility and Regenerative Agriculture.

For example, for the alternative energy theme, the investee company has products/services that enable energy solutions that do not rely on the burning of fossil fuels (such as the generation, storage and distribution of clean energy).

The Fund invests at least 80% in the shares of listed companies globally. Up to 20% of the Fund may be invested in other assets, including shares of other companies, money-market instruments, derivatives and forward transactions, deposits, nil and partly-paid securities, bonds, convertible bonds, cash and near cash as deemed economically appropriate to meet the Fund's objective. These investments will be held for diversification and risk management purposes.

The majority of the companies (and at least 70% of the assets of the fund at all times) will be selected in accordance with the Sustainability Approach. Up to 30% of the Fund may be invested in other assets that do not meet the Sustainability Approach but will not conflict with the Fund's sustainability objective.

The Fund does not currently intend to use derivatives for any purpose other than the efficient portfolio management.

There are also certain sectors and economic activities that we consider fundamentally unethical or misaligned with our sustainability objective, and we apply baseline exclusions (negative screens) to remove such companies from the pool of potential investments.

Details of the Fund's Sustainability Approach and more information on our baseline exclusions can be found in the Prospectus and the Fund's Sustainability Disclosure which are available at

[www.edentreeim.com/literature](http://www.edentreeim.com/literature)

You may buy and sell shares on any day on which the London Stock Exchange is open for business.

Any income on the Fund will be paid out to you or you may choose to have it reinvested by purchasing additional shares.

The Fund may not be appropriate if you plan to withdraw your money within 5 years.

### Risk and Reward Profile

Lower risk = Typically lower rewards

Higher risk = Typically higher rewards

- The risk category above is not a measure of capital loss or gains, but of how significant the rises and falls in the Share Class price.
- For example a Share Class whose price has experienced significant rises and falls will be in a higher risk category whereas a Share Class whose price has experienced less significant rises and falls will be in a lower risk category.
- As the Share Class risk category has been calculated using simulated historical data, it may not be a reliable indication of the Share Class future risk profile.
- Please note that the Share Class risk category may change in the future and is not guaranteed. The lowest risk category does not mean a risk-free investment.
- The Share Class is in risk category 5 as its price has experienced significant rises and falls historically based on simulated data. The Fund was launched in January 2022 and therefore the risk category is based on simulated data to December 2021 with actual fund data thereafter.

#### What risks are associated with this fund?

- The value of your investment and the income you get from it may fall as well as rise and you could get back less than you put in. What you get back when you cash in your investment will depend on investment performance.
- Selecting stocks due to our ethical criteria means that the choice of stocks is limited to a subset of the stockmarket and this could lead to greater volatility.
- The Fund may hold foreign investments which are not denominated in Sterling, which means it may be affected by fluctuations in rates of currency exchange.

More details on all of the risks mentioned above can be found in the full Prospectus.

# Key Investor Information

## Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0%
Exit charge	None

This is the maximum that might be taken out of your money (before it is invested) (before the proceeds of your investment are paid out).

### Charges taken from the Fund over a year

Ongoing charges	0.85%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	None
-----------------	------

The entry charge shown is a maximum figure. In some cases you might pay less – you can find this out from your financial adviser or distributor.

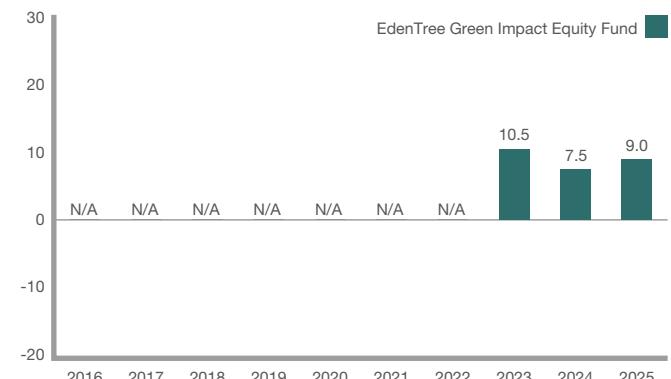

The ongoing charges figure is based on the expenses for the year ended 31 December 2025. This figure may vary from year to year and excludes portfolio transaction costs.

The ongoing charges figure is currently capped at 0.85%. The actual ongoing charges figure is estimated to be 0.98%. EdenTree will continue to apply the cap to the ongoing charges as long as the actual ongoing charges are higher than the cap. The ongoing charges charged to the Fund will be the lower of the ongoing charges figure cap and the actual ongoing charges figure.

If you switch Funds within the EdenTree Investment Management range you will be charged a maximum 1% entry charge on your new Fund. The switching charge is currently set to zero.

For more information about charges, please see Appendix 1 of the Fund's Prospectus, which is available at [www.edentreeim.com/literature](http://www.edentreeim.com/literature)
